EFFINGHAM CEMETERY TRUSTEES REPORT

The year 1992 was not as easy as 1991; we had a hard time getting anyone to stay with the mowing of the cemeteries. We realized it is not an easy job to do, but a necessary one to honor our dead.

Mr. Edward Schulz called me to see if I was having trouble getting someone to mow, and I told him yes. He offered to see that Woodland Cemetery was kept up this summer. David Seamans mowed the outside of the cemetery with his father's tractor and mower. I was able to paint some more on our gate, and we had to have three of our headstones re-set at the Center Effingham Cemetery.

I was able to fill-in and seed one or two more lots. Mr. Stetson was worried about his brother's and father's graves (Hussey) - they now look nice.

One nice thing happended; Ed Schulz carved a stone for Jarrod Knowlton and put it in place in Woodland Cemetery. Thank you, Ed. Tony Weaver had a double stone set for his grandparents, the Alan Humphreys.

UNCARED FOR CEMETERIES

The first cemetery worked on was the Nicklin Brothers on Pike Road at Lord's Hill. We cut-out pine and trees around it. I cut back the spreading moss and put chips around the stones so they would not get covered-up again. We mowed and put the chain around the cemetery again. My time, and that of Chris, was donated - the only expense was for the chain.

The second cemetery worked on was trees cleared from Emaline Clark lot. Two loads of brush were cut; we should spray to keep the brush down. Chris gave his time for this - no money was spent.

The third Uncared For Cemetery fixed was the Stevens I. We hope to do Stevens II next spring. Seven side stones were placed back up. Bases were found, leveled and stones repaired. This cemetery was where most of the money was spent - it looks so nice now.

The fourth cemetery is one Caroline Potter helped to save, the Bela Emerson lot on Philbrick Road. We weed-wacked, raked and measured for posts. We need to set one headstone back up and put chain around the cemetery. We hope this will make the cemetery show-up better.

EFFINGHAM VOLUNTEER FIRE DEPARTMENT

The Effingham Volunteer Fire Department in 1992 showed a roster that has remained stable and strong during the past year. Two additional members completed the Firefighter I course (\$175.00 per member).

Twelve business meetings and several training sessions were conducted. The Department also had a large diameter hose training session on Route 25 with the Freedom Fire Department. The Department had two air packs completely serviced. The Department had to replace the engine and transmission in 2T1 and rebuilt the 1000 GPM pump on 2E5.

Effingham Fire Department, Ossipee Valley Mutual Aid Association and the Carroll County Sheriff's Department are in Phase #2 of a major communications study contracted by RAM Communications.

The Effingham Fire Department was able to purchase the following equipment in the past year: 150 ft. of 4" hose, a light-weight portable generator and light, a 4" Stortz Valve for 2E1 and a drench to aid in fire suppression. New communications equipment included one new 2-way radio for 2E1 and one mobile radio for an department officer. Also upgraded was part of the member turn-out gear.

The Effingham Fire Department had a five room, 1-1/4 story wood-framed house donated for training. Several training sessions were held and an actual burn of the building was done on March 22, 1992. The following is a list of runs for 1992:

2 Structure Fires	
1 Water Rescue	
1 Automobile Fire	
14 Automobile Accidents	
10 Alarm Activations	
2 Chimney Fires	
5 Special Services	
10 Mutual Aid	
3 Forestry	
2 Miscellaneous	Total of 50 calls for 1992

The Effingham Fire Department is always interested in new members. If interested, please contact any member. IN CASE OF AN EMERGENCY, CALL 539-2261. BE SURE TO GIVE YOUR NAME, LOCATION AND TYPE OF EMERGENCY.

REPORT OF TOWN FOREST FIRE WARDEN
AND STATE FOREST RANGER

1992 was below average for wildfires reported in our State. Our largest fire was in May in Rumney, where a suspicious origin fire burned approximately 150 acres with a total cost of approximately \$30,000. The Nh Division of Forests and Lands assisted many other communities in wildland fire suppression as well.

Our fire lookout towers reported 289 fires, burning a total of 136 acres. Our major causes of fires were fires kindled without a permit, unknown causes and children.

Please help your Town and State Forest Fire Officials with fire prevention. New Hampshire State Law (RSA 224:27) requires that, "No person, firm or corporation shall kindle or cause to be kindled any fire or burn or cause to be burned any material in the open, except when the ground is covered with snow, without first obtaining a written fire permit from the Forest Fire Warden of the Town where the burning is to be done." Violation of this statute is a misdemeanor, punishable by a fine of up to \$1,000 and/or a year in jail and you are liable for all fire suppression costs.

Local fire departments are responsible for suppressing fires. The small average fire size of .47 acre/fire is a tribute to early detection by the public or our fire tower system and the quick response of our trained local fire departments. Please help your Warden and fire department by requesting and obtaining a fire permit before kindling an open fire.

The NH Division of Forests and Lands assisted 28 towns with a total of \$20,000 in 50/50 cost share grants for firefighter safety items and wildland suppression equipment in 1992.

If you have any questions regarding New Hampshire forest fire laws, please contact your local Forest Fire Warden, State Forest Ranger or Division of Forests and Lands at 271-2217.

For fire permits and information, call 539-6370 or 539-7766.

EFFINGHAM PLANNING BOARD

The Effingham Planning Board found that the 1991 trend continued into and through 1992. Very little actual new subdividing of property was presented to us; however, alternate and extenuating circumstances for property division continued to occupy our time. These special requests not only require as much time and cost as a new subdivision, but also many times require additional legal advice costs.

The Planning Board thanked Sara Piper for her 12 years of Town service by awarding her a plaque. We also awarded Raymond Van Tassel a recognition plaque for his 20 years of continuing, dedicated service.

The Planning Board meets the first Tuesday of each month at 7:30 PM at Town Hall. We want to express our appreciation to all of the townspeople for their thoughts and contributing recommendations. We also want to invite everyone to attend our meetings; we can only represent you accurately if we have your input.

Curt Brooks, Chairman

EFFINGHAM LANDFILL/RECYCLING CENTER

Our Landfill has made it through another year with no problems. We are still taking water tests on the Landfill and everything seems to be fine. We have had an increase in the amount of trash this year, because of increased population in town and a heavy summer population. I will continue to try to keep the costs down for running the landfill/recycling center.

For all the new people in Town, remember that your trash must be separated. We have been recycling the metals, white goods and aluminum cans. We also have found a company to take our used tires at a reasonable rate. A new law has taken effect for refrigerators; they must be drained of Freon gas by a specially-licensed company.

The Town has had two weekends to accept tires and appliances at no charge. I have also attended classes again this year given by the State of New Hampshire to maintain my certification. We hope everyone will continue to do a good job on separating their trash. If you have any questions on the landfill/recycling center, feel free to call me.

Thank you,

Anthony Monafo
Landfill Contractor

LIBRARIAN'S REPORT FOR 1992

In order to prevent confusion with the carpentry work being done in the adjacent room, we postponed work on the bookcases until later.

The purchases during this year were: for Grades 2-7, a student's encyclopedia set of 23 books plus atlas, 34 pre-schooler's books, Easy Science Experiments To Do At Home (8 books), The Historical Cornerstones of Freedom Set of 19 books, 7 classics and 21 books for all grades.

For the adults, 20 mysteries, 20 general fiction, 21 romance, 21 non-fiction, 6 historical and 4 books of vital statistics for the Town of Freedom, Effingham and Ossipee NH and Porter, ME.

We subscribe to Reader's Large Print Books and Country Life Magazine. We also receive "Kids" Magazine and Youth 92, Business New Hampshire, Plain Truth and other complementary magazines.

Our thanks to all of you who have donated books and magazines. It does help our Library to offer a wider selection.

Thanks again,

Joyce Van Tassel

EFFINGHAM HISTORIC DISTRICT COMMISSION

The Effingham Historic District Commission meets the second Thursday of each month at 7:30 PM at the Town House. Eleven regularly-scheduled meetings were held during 1992, and five applications were approved by quorum. Noteworthy also, a collection of reference materials is maintained and this information is available upon request to those interested.

During March 1992, the United States Preservation Commission issued a document entitled, "Breakdown of Number of Historic Preservation Commissions by State" which actually translates into a social commentary on the changing perceptions in this diverse country and on the nationwide agenda toward the preservation of cultural assets. This study revealed that by the year 1976, 491 Historic Commissions had been established. By the year 1992, these had increased to a total of 1803. In combination, they form a strategic link along the path of environmental sustainment. Some representative statistics in the study are listed below:

	<u>1992</u>		<u>1992</u>
Connecticut	70	Iowa	76
Florida	39	Kentucky	28
Maine	16	Michigan	63
Maryland	39	North Carolina	67
Massachusetts	135	Ohio	79
New Hampshire	59	Pennsylvania	70
New Jersey	57	Texas	49
New York	134	Utah	48
Rhode Island	17	Virginia	58
Vermont	24	West Virginia	55

During May 1992, copies of the recently-adopted Effingham Historic District Regulations were forwarded to residents of the Historic Districts. These guidelines are based upon Federal and State standards and assembled in keeping with those of the 1803 dedicated preservation commissions throughout the nation to accomplish the conservation of community resources which are a legacy from the past to the citizenry and which will be a heritage of future generations.

We appreciate very much the continued support of the Townspeople.

Respectfully submitted,

Arleen Gertsen, Secretary

CONSERVATION COMMISSION

This Commission is a board concerned with environmental impact issues and activities including logging, dredging and filling, water pollution as it effects wetlands, soil erosion, stream or river diversion, wildlife and associated matters.

The Commission met monthly during 1992, with the exception of November (icy roads) and December, when no regularly-scheduled meeting is planned. Field trips were made to investigate all complaints received by the Commission. One new member was appointed to the Commission, John Edwards, to fill a vacated position.

Again this year, the Commission sponsored Earth Day. An essay contest, under the direction of Pat Leonard (Commission Secretary), was held in the local school for sixth-grade students. The essays were judged and prizes awarded to the winning students. Also in observance of Earth Day, the annual clean-up of Effingham roads was conducted. The response to the request for volunteers to assist in the project was extremely poor. The residents of Effingham should show a more definite interest in the cleanliness of their roadways and plan to assist in this yearly undertaking.

We wish to thank Cliff Chamberlin, our Selectman liaison, for his cooperation and participation with us during the past two years. We are sorry to hear of his resignation and moving from the town.

The Commission meets at the Town House at 7:30 PM the third Tuesday of the month, January through November, in addition to field trips and site inspections.

Respectfully submitted,

James Champion, Chairman

REPORT TO THE PEOPLE OF COUNCIL DISTRICT ONE

The five member NH Executive Council has its Constitutional authority in Articles 60 through 66 in the New Hampshire Constitution. Through the many Legislative Sessions, much of New Hampshire law includes the Council in major decisions that are made by the Governor and top Executive Branch Officials.

Acting similar to a Board of Directors of a corporation, the Council by law is called to act upon requests from the many executive branch departments and divisions. These requests are reviewed prior to Governor and Council consideration by the Attorney General's Office and the Commissioner of Administrative Services to be legally correct and that proper funds are available. Generally, all contracts will outside state government agencies and individuals must be approved by the Governor with the advice and consent of the Council. This brings to the very top of your Executive Branch an elected voice from your area.

The entire Judicial Branch of NH State Government is nominated by the Governor and confirmed by the Council. This is a very serious and key function of the Council. Judges are seated until their 70th birthday.

The five member Council by law is now part of the Ten Year Highway Plan for New Hampshire and must by law hold hearings to gain citizen input and information on changes in the highway and bridge system of New Hampshire. Our report is due to the Commissioner of Transportation by June 1, 1993.

The Council also plays a key role in assisting citizens, agencies, towns, cities and businesses in their relationship with New Hampshire State Government. A Councilor is only a phone call away and stands ready to assist in this ombudsman role.

As Councilor for your Town and area, I stand ready to be of service.

Subject: 1992 Landfill Closure Activities 90-3794

Dear Board Members:

During 1992, Kimball Chase Company provided the following services to the Town:

- 1) Continued water quality monitoring of groundwater and the South River.
- 2) Elevation surveys of the landfill site.
- 3) Evaluation of the landfill's operation.

The results obtained from water quality monitoring indicate the same conditions as 1991. The landfill is generating leachate, but is having minimal impact upon groundwater. No surface water impact has been noted. Reports are issued three (3) times each year to the Town and the New Hampshire Department of Environmental Services (NHDES).

Project engineers have reviewed the plan of operation, showing the landfill methods best used to prepare the site for ultimate closure, with Ted Clark at NHDES.

Janice Greenwood in our Portsmouth Office has periodically checked with NHDES concerning their review of the project. Jan and her family have recently moved to Massachusetts. We have replaced her with Scott Braley, an environmental engineer in Portsmouth.

Information has recently been provided on the possibility of an interim landfill closure and a transfer facility at the Town's solid waste site. This work can be done within the budget previously established for your project.

Kimball Chase appreciates the work which Effingham has asked us to undertake since 1988. We look forward to continuing our work with the Town and addressing its solid waste disposal requirements in this coming year.

Very truly yours,

KIMBALL CHASE COMPANY, INC.

Re: Town Audit Status

Dear Mr. Augenti and Board of Selectmen:

This letter serves to update you on the status of the audit for 1991. As you know, with the exception of completing the taxes receivable portion of the audit, all of our other procedures are complete, and have been completed for some time.

We certainly understand and compliment your efforts to remedy the circumstances which have arisen. Your action to gather local volunteers to perform a very detailed, time consuming verification of the transactions for 1991-92 is appreciated. The actual local volunteer effort is laudatory. This generosity brings to the Town considerable cost awareness and savings since alternately using our professional staff for this kind of service would have been quite prohibitive.

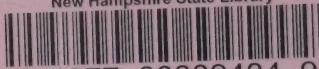

When the tax accounts are verified in entirety we will then audit the transactions and reports. We will also, at your request, make ourselves available for a public question and answer period upon completion.

Again, thanks to the volunteers and the Board of Selectmen.

Sincerely,

Stephen E. Grzelak, CPA
